2026
Org. random intercepts
Org. capped at 50
Year-of-first-commit effects relative to 2019;
covariates: log commits, authors, language family.
Gray: organization random intercepts, all repositories.
Black: same model with each organization capped
at 50 repositories (mean of 5 random draws).
Light band: January 2023 to January 2025.
Dark band: February 2025 onward. Bars: 95% CI.
