Random intercepts, all repositories
Capped at 50
Year-of-first-commit effects relative to 2019;
covariates: log commits, authors, language family.
Gray: organization random intercepts, bars 95% CI.
Black: each organization capped at 50 repositories
(mean of 200 draws), bars 95% bootstrap interval
(500 organization-bootstrap replicates).
Light band: January 2023 to January 2025.
Dark band: February 2025 onward.
